

## Introduction and Table of Contents

### El Ochito®

The Octaxial Contact  
for 10Gb Ethernet,  
SuperSpeed USB and  
Multi-Gigabit Data Rates

El Ochito® White      El Ochito® Blue      El Ochito® Red

- 10GbE, SuperSpeed USB, and multi-gigabit shielded pairs
- Crimp shield termination and threaded (serviceable) shield termination contact types
- Snap-in, rear release
- Environmentally protected
- Aerospace-grade performance

El Ochito® contacts are intended for harsh environment military and aerospace data networks. El Ochito® contacts provide up to 50% total weight savings and 20 times faster data rates compared to legacy quadax-based solutions. These contacts have eight crimp signal pins housed in a machined, gold plated outer contact. El Ochito® contacts are compatible with ARINC 600, EPXB connectors, Series 80 Mighty Mouse, Series 79 Ultraminiature Rectangular and Series 23 SuperNine® (MIL-DTL-38999 type) connectors. These size 8 contacts are available in three versions: El Ochito® White for 10GbE Ethernet, El Ochito® Blue for SuperSpeed USB, and El Ochito® Red for multi-gigabit 100 ohm protocols such as HDMI and SATA.
