

SERIES 77  
SHRINK BOOTS

# LIPPED BOOTS

Straight, 90°, 45° and 30° angle lipped boots available in standard, short, long tail, hi-ratio, heavy wall and convoluted styles.

**S**traight, 90°, 45° and 30° angle boots with lip for attachment to standard circular connector adapters and connectors with integral boot groove. After shrinking, the boot lip locks into boot groove to keep out environmental debris. Order with optional adhesive coating for a watertight, high-strength bond to the cable jacket and adapter. Eyelet holes are available for popular styles to provide a convenient attachment point for dust caps or protective covers. Choose from 8 material options to suit operating temperatures and conditions. Also available in halogen free material for regulated environmental safety applications. Choose boot size based on adapter diameter and cable diameter.
