

SERIES 77  
SHRINK BOOT  
ADAPTERS

# SHRINK BOOT ADAPTERS

Light weight cable sealing solution

Choose from the industry's largest offering of shrink boot adapters. Adapters allow connectors with threaded backshell accommodation to accept a smaller, lighter shrink boot cable sealing solution. Available with EMI/RFI shield termination with a variety of termination options including lamp-base thread, factory crimped and tinned shield sock or banding platform for use with Band-Master ATS shield termination bands. Adapters available in both metal or composite versions with popular finish options to fit your application.
