Glenair Front Release (GFR) Fiber Optic Connection System: the Fast Road to Fiber Optic Integration

The Glenair Front Release system allows for rapid connector integration of optical media by placing retention and environmental sealing components directly on the termini. GFR enables fast design and development of unique fiber optic connector shell packages without costly tooling and engineering.

- Precision size 16 pin-socket front release termini with integrated retention clip
- Singlemode and multimode for all popular fiber sizes
- Typical insertion loss less than 0.5 dB
- Supports cylindrical and rectangular connectors
- Connector shells available in aluminum and stainless steel

GFR fiber optic termini integration in micro miniature rectangular and circular connector packaging
