

Flat CRES 316 Strip with Mounting Holes  
Mil-qualified for shipboard electrical bonding applications

HOW TO ORDER						
Sample Part Number	M24749	-II	-N	-L	-W	-H
Product Series	MIL-DTL-24749 Type II Bond Strip					
Bond Strap Type	II = Flat CRES 316 strip					
Standard Size Code	See Table N = For Nonstandard Sizes					
Length	Only for Nonstandard					
Width	Only for Nonstandard					
Hole Diameter	Only for Nonstandard					

**GROUND STRIP FEATURES**

- Meets the rigorous specifications of MIL-DTL-24749 type II bonding strips
- Intended for lower-impedance bonding items in weather-exposed areas where corrosion is a concern.
- The length-to-width ratio for type II bond straps shall not exceed 5 to 1.
- For more options see Glenair Part Number 107-502.

**MATERIAL/FINISH**

- Strip - 316 stainless steel per ASTM A240 or A666/N.A.
