

SERIES 801 DOUBLE-START ACME THREAD Mighty Mouse Connectors and Cables

Hermetic, PCB Receptacles with Power/Signal Contacts and Threaded Standoffs

Series 801 PC Board Mounting Hermetic Receptacles feature double-start, modified stub, ACME mating thread for improved protection against cross-mating and thread damage. Stainless steel shells provide excellent corrosion resistance while fluorosilicone seals and o-rings offer improved immunity to harsh chemicals. 100% tested to meet 1×10^{-7} ccHe/sec

@ 1 atm helium leak rate. Square flange and jam-nut shell styles available. Integral standoffs for solder washout and threaded PCB mounting holes for harsh environments where high vibration and shock are a concern. PC tail contacts allow for attachment to flex or rigid circuit boards. Contacts are nickel alloy and gold plated.
