

SERIES 805 TRIPLE-START ACME THREAD Mighty Mouse Connectors and Cables

Crimp Contact Environmental Plug with Accessory Threads or Integral Shield Termination Platform

Series 805 Environmental Plugs: feature two shell styles including Integral banding porch version for direct shield attachment using Band-Master ATS® termination system, or accessory thread version for attaching a connector backshell or strain relief. EMI ground spring achieves low shell-to-shell resistance. This nickel-plated beryllium copper spring enables the

Series 805 to meet greater than 60 dB shielding effectiveness from 100 MHz to 15 GHz. Coupling features an anti-decoupling ratchet mechanism in the coupling nut that locks into radial teeth on the plug barrel. This feature allows the Series 805 to stay mated even when under high vibration, without the need for safety wire or torque tools. Crimp-removable contacts, size #23 to #8.
